

Salt Dough Ornaments

SUPPLIES

- Glue gun
- Template
- Scissors
- 1 C Flour
- 1/4 C Salt
- String
- Paint brush
- Paints
- Spoon
- Big Bowl
- Plastic Wrap

INSTRUCTIONS

1. Gather all of your supplies.
2. Dump the flour and salt into a big bowl.

3. Add 1/3 C of water and mix, mix, mix. If the dough is a bit dry, add a few tablespoons of water.

4. Dump out the dough onto a clean counter and knead it with your hands until it's nice and smooth.

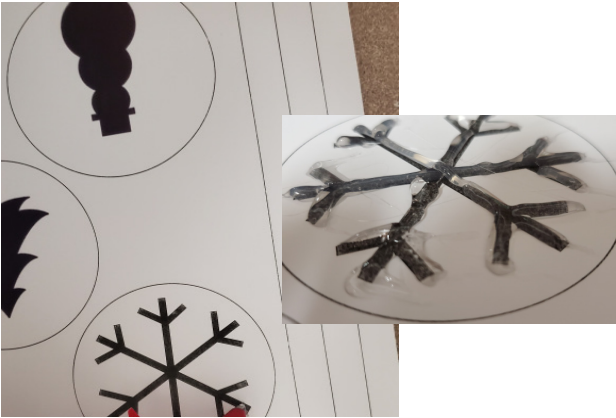

5. Set the dough to the side.

6. Cut out one of the long strips on your template page and tape the ends together to make a circle.

7. Using hot glue, fill in the shape of one of the templates. Do at least 2 layers so the glue is nice and thick.

8. Glue the strip onto the circle. Place the plastic wrap over the circle. Pull off a small chunk of dough and press it onto the hot glue and inside the circle.

9. Lift up the plastic wrap, or flip over the paper exposing your finished ornament!

10. Using your straw, push a hole through the top of your ornament for a string to go through.

11. Place the dough ornament onto the black cooking sheet and place in an oven pre-heated to 200°F for 2 hours.

12. Let the ornament(s) cool and use the included paint to decorate your ornaments.

13. You can attach all of the ornaments to one string to make a garland, or cut the string into pieces and hang them individually on your tree!
