

Mud Muffins

SUPPLIES

- Clay
- Small Shovel
- Mixing Bowl

INSTRUCTIONS

1. Gather all of your supplies.
2. Pour the clay into the mixing bowl.
3. Add enough water to make a thick mud. Add little bit of water at a time.
4. With your shovel, dig a small hole in a shaded part of your garden. It should be about 5cm by 5cm by 5cm.
5. Pack the mud on the north facing side of the hole for your bees to use.
6. Check back periodically to test the clay. You want to make sure that the clay is not too wet or dry. If your hole keeps filling with water, you may want to move the mud to another location. Your mud muffin is best placed near your bee hotel and bee bath.
